Road Maintenance in Indian Country

Table 2 includes updated expenditures of TTP funds during FY19, as reported by the tribes, and includes each tribe's maintenance allocation. Note that tribes are allowed to carry over funds from previous fiscal years, which explains why some tribes expended more funds than they received in FY2019.

Tribes may allocate up to 25% of their total TTP funds or \$500,000, whichever is greater, for maintenance.
